Farewell Given to Retiring Worthy Matron. On Wednesday evening of last week

the Eastern Star Chapter held their installation of officers for the ensuing year, and this meeting also served as a farewell gathering for their retiring Worthy Matron, Mrs. Laura Raae.

Nearly every member was present, and Worthy Matron Mrs. Rane as installing officer installed the following to take charge of official duties for he ensuing year: Worthy Matron, Mrs. Ange Ashenfelter; Worthy Patron. Melvin Bates: Associate Matron. Mrs. Elsie Roblin; Secretary, Miss Mabel Brasie and Treasurer, Mrs. Libbie Bates.

After the installation delicious re freshments were served and Mrs. Rane, retiring worthy matron during the luncheon was presented with a very appropriate gift of a set of silver salad forks, by Worthy matron Mrs. Ashenfelter, who spoke a few sincere words in tribute to Mrs. Rane, who had been held in such high esteem by each and every member. G. A. R. Patriotic Concert Was Successful Affair.

The Patriotic program given at the Temple theatre last Friday evening, under the auspices of the Ladies of the G. A. R. proved to be a very successful affair. There were quite a number in attendance, and the program was carried out very nicely, and each one of the little folks, as well as

the grown-ups did finely.

There was a great variety of entertainment, consisting of instrumental and vocal solos, duets, readings, a flag drill, and songs by the school children. The concert opened by the singing of the song "The Star Spangled Banner" rear most of the time. The prize-winning word in our contest for a better name than "flashlight," is DAYLO.

In our announcement of this contest last Fall, we stated that "if two or more contestants submit the word selected, the full amount of the prize will be paid to each."

We have made our selection without regard to the number of duplications. The word DAYLO was submitted by the four following contestants, to each of whom we are pay-

Mrs. F. C. Grow, 1219 Second Street, N. E., Watertown, S. D. Katherine W. Hand, 1501 Mulvane Street, Topeka, Kansas, Miss J. M. Schulz, 239 Second Street, Union Hill, N. J.

Bertha A. Wilson, 413 Park Avenue, Medina, N. Y. The decision of the judges was unanimous. They were agreed that the word DAYLO fulfills in a masterly way the requirements specified.

DAYLO is indeed easy to remember and pronounce. In fact, it cannot be mispronounced, and its elements do suggest the nature and use of Eveready. "DAY" suggests perfect light, and "LO" means "Behold!". "See!"

We wish we might personally thank each of the half million contestants of Eveready friends and users who have contributed so earnestly and helpfully to the success of our search for a new name.

Sincerely,

AMERICAN EVER READY WORKS, Long Island City, N. Y.

What the Housewife Wants to Know

It is a fact that the meats which we sell are far superior to those commonly sold from market; the reason of this is that quality is our first consideration when making our selections. Another reason is that we do not leave it to the discretion of those from whom we buy to deliver what they see fit-we personally inspect every piece of meat which enters our doors, consequently we can guarantee every piece which we sell. The meat question is an important one in every home and we believe that we can convince you that it is to your advantage to patronize our market, if you will give us a fair trial.

Balfour, Head of British War Mis sion Explains Need of Food Supplies

Washington-What the allies want from the United States more than anyhing else is food. At conferences be tween the Balfour party and President Wilson's cabinet this vital fact was brought out.

The greatest need of the allies was expressed by A. J. Balfour the British spokesman as follows:

BILLY EVANS SOLVES BASEBALL PROBLEMS

(Written Especially for This Paper by the Famous American League

A play came up in one of the smaller minor leagues several years ago that probably will never happen again. It was a freak pure

and simple, but it is always a possibility, for I once saw Hal Chase turn the same trick in practice, and "Kld" Elberfeld pull it in a game, but not with such results as happened in the minor league episode. In the game in question

the play came up in the last half of the ninth, with the bases filled, no one out, three runs needed to tie and four to win. It happened the year after the rule had been changed, and the ecruit umpire not being familiar with the change, interpreted the play incorrectly and a riot followed. At that, most of the fans really did not know what they were kicking about at the time, most of the trouble makers simply stirring up things on general principles

The batter, one of the hardest hitters on the team, hit a line drive in the direction of the second baseman. It was evident to the runners that the ball was so far over the field-er's head that there was not a chance for him to get it; at the crack of the bat they had

As he afterwards admitted, he did not know that he was Anyway, the glove struck the ball squarely, causing it to fall toward the ground within a short distance of the second baseman, who recovered the ball before it struck the ground, touched second and threw to first, completing a triple play that was allowed by

Of course, there was a big kick, in which the home crowd joined in lustily. Had the infielder not thrown his glove at the ball and checked its course, it might have gone for a home run and won the game.

Answer to Problem. Throwing one's glove at the ball to stop the progress of such drives as the player was unable to reach otherwise was a rather common practice at one time. To eliminate this objectionable stunt, the rulemakers imposed a severe penuity, which has practically stopped it entirely. The rule entities the butsman to three bases on all plays where the fielder stops or catches a batted ball with his cap, glove, or other part of his uniform while detached from the proper place on his person. Thus, in the play described, instead of allowing a triple play that retired the side, all three runners should have been permitted to score, and the man who hit the ball-granted third base. I saw Elberfeld make such a play in a regular game, with two out and no one on the bases. It really worked to advantage, for the batter who hit the ball was very fast and probably would have made a home run, but for the rule as it seemed impossible for the left or center fielder to reach the ball. Elberfeld was playing shortstop at the time.

Seating Capacity of More Than One Hundred Parks is but 3 Per Cent of Population-Some Interests ing Figures.

The recent discussion relative to the high cost of baseball and the changes suggested as tending to reduce what in some cases is close to prohibitive ex-pense has led to some interesting statements and explanations. That some are not based upon cold facts can be shown by a careful study of the base ball situation as it exists today.

It has been said that one reason for the heavy expense in connection with the management of a baseball club is the building of parks and stands considerably in excess of the prospective attendance as warranted by the popu-lation of the surrounding territory. While this statement may be true in one or two isolated cases, it is not borne out by existing figures in so far us it applies to the general run of ma-

On His Way Up-Stream.

The bass is always on the move up-stream, which is likely caused by the scarcity of natural food in the lower waters. He has no love for rapids-or riffles and is seldom if ever found in them, but in the quieter waters at the lower end of a rapids or in the eddies on either side he is right at home. Although he does not like the rougher swifter waters of the rapids and riffles he will often dash into their frothy edge in pursuit of minnows, returning at once to the quietor water. The bass will also dash into very shallow water after some of the small fry, often in water so low that his dorsal fin will be entirely out of the water, returning, however, instantly to the deeper water with his catch. In his up stream migration he will often loaf in pools be-low the rougher shallower water of the riffles until rainy weather raises the water, making swimming better for the morning in summer. DANISH CONGREGATION CELE-BRATE, 25TH ANNIVERSARY.

First Minister of Church, Rev. Ootke, Present. Tuesday, April 24, was the occasion of the twenty-fifth anniversary of the Danish-Lutheran church here. During the last week the committeemen of that church had been busy arranging a celebration for that day, and

tasty invitations had been issued to the members of the congregation, and others of the Danish nationality, out of the city.

The church had been made pretty by large bouquets of red and white carnations and sweet peas, the colors of the flag of their country, and here the people met, and the celebration began. Rev. Kjølhede opened the services, and introduced to the congregation their first minister in Grayling, Rev. Gotke, who came from Clin ton, Iowa, to be present on this occasion. He welcomed the people, many of whom were early settlers here and who remember him very well. Many of the Danish people, who are now en joying the 25th Anniversaries of their wedding day, were joined in wedlock by this gentleman, and young people of twenty-five years and thereabouts were baptized by Rev. Gotke. His presence was much enjoyed by, all present, and he was a pleasant guest for the evening. After Rev. Gotke finished his sermon, Rev. J.A.M. Rod-

holm of Manistee, spoke a few words in honor of the day, and then all gathered at Danebod hall-to spend the evening. Here acquaintances were renewed

and a general social evening was spent. Delicious refreshments prepared by the Ladies of the congregation were served to all present by the young ladies of the D. Y. P. society The tables were very pretty with bouquets -of-sweet peas and-carnations and this feature was much enjoyed Toasts were given by several and many cheery remarks made.

It was in 1892 that several familie from Manistee came here to make this their homes and after being here a short time organized a congregation and Rev. Gotke, who was then the minister of Manistee, came here at different times to hold religious meetings. In 1893 the church where it now stands was erected and this minister was present at the dedication. Afterthis the following clergymen took

charge of the religious duties of the church: Rev. Axel Heuritzy from 1893 to 1896; Rev. A. P. W. Becker from 1896 to 1905; Rev. Axel Kildcgaard from 1905 to 1908; Rev. Peter Kjølhede, the present minister, who came in 1908. The first Board of trustees consisted of the following, all of whom were present, except Rasmus H. Ras musson, who passed away about twelve years ago: Olaf Sorenson, Henry Peterson, Severin Jenson, Rasnus H. Rasmusson and Anders Mor

It is a long time since there was as large a gathering of the Danish people and the 25th anniversary of the Danish Lutheran church will be long remembered, by the people of that congregation.

Mother's Doll Story

The Lost Mittens

Right after Christmas a little boy

whose name was Charlie went out to play in the dooryard. He took with him a pair of levely red mittens that Santa Claus had given him and his pet rag doll, a nice

kangaroo.
The air was cold and bright, and Charlie ran twice around the yard with his kangaroo under his arm. Then he took a pointed stick and poked a hole through the ice that lay on top

ruised water lilies in the summer "I believe that's a fish!" cried Char

lie to his kangaroo. "It looks like a fish, but it may be a broken stick," said the kangaroo, who was quite wise for a doll.

"If it weren't for these red mittens could find out," said Charlie, throwing his mittens on the ground and reaching into the cold, cold water. Just then a little breeze began to

olay in the dooryard too. It caught up Charlie's red mittens and blew them right into the water, just as if they had been red autumn leaves.
"I'll get them out," said the kanga-

roo doll. And he stepped up to the edge of the water, ran his long neck right down into it and brought up between his teeth a pair of sopping wet red mittens that Santa Claus had on brought a little boy.

Some Good Advice.

"Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these aliments with the best results, and will do well to follow their exam-

BOY SCOUTS AND WAR

In an official statement just issued telling what the boy scouts will do in case of war, the national council of the Boy Scouts of America makes it clear that no distinctive or definite part will be taken by the scouts in any military operations, and that no local organizations will have authority to involve scouts in such service. It is stated that it will be the privilege and pleasure of each member to volunteer his services for co-operation with the local civic authorities, and that the training which sconts have had will make them efficient and dependable in doing such work as-

TAMING OF "HOOLIGANS."

The English "Hooligan" corresponds to the American rough neck. He is the fellow who drapes himself about the corner saloon, spits tobacco juice on the pavement and makes obnoxious remarks about passers-by.

Gen, Sir Robert Baden Powell has long devoted a part of his time to the taming of young "Hooligans." The taming of lions, tigers and other large pussy cats would be easier but he feels that it would be less profitable from the standpoint of the nation.

His recipe for doing the job is: First, catch your Hooligan; second, make him an associate member of a scout troop: third, let him become a scout as soon as he qualifies, which in 90 per cent of the cases has been found o be about a week or two.

Many of them have already been rewarded for public service. It is a pathetic sight to see a real Hooligan who has been a "bobby batter" suddenly turn into an orderly for the police a "copper's companion," as one of them called himself.

NOTES OF THE SCOUTS.

A scout! He enjoys a hike through the woods more than he does a walk over the city's streets. He can tell north or south or east or west by the 'signs." He can tie a knot that will hold, he can climb a tree which seems impossible to others, he can swim a river, he can pitch a tent, he can mend tear in his trousers, he can tell you which fruits and seeds are poisonous and which are not, he can sight nut-bearing trees at a distance; if living near ocean or lake he can reef a sail or take his trick at the wheel, and if pull an oar or use paddles and sculls; in the woods he knows the names of birds and animals; in the water he tells you the different varieties of

The Boy Scouts of Ruston, La., have written Dr. Oscar Dowling, president of the state board of health, saying that they have secured the state-mos quito survey of their town and propose to eradicate mosquitoes and flies. With this object in view, they have requested the state board of health to detail an inspector to assist them in starting the work.

It is stated that Iowa is the home of at least 854 different varieties of birds. The Boy Scouts of that state claim that there are at least 370 varieties of birds in the state and intend to prove their statement. They will make notes on all birds that they see and send these to some central office where they will be carefully studied and arranged.

Boy Scouts of Waycross, Ga., have induced one of the local papers to allow them to get out a Scout edition, The boys are furnishing the news and will see to it that their own edition has a large circulation.

In a two weeks campaign the scouts collected 3,000 of the eggs and, as a result, Troop No. 8 was awarded a large parade banner by Major Stolwho commended the work, not only in this campaign, but of the

Canada Offers 160 Acres Free to Farm Hands

Bonus of Western Canada Land to Men Assisting in-Maintaining Needed Grain Production

The demand for farm labor in Canada is great. As an inducement to secure the necessary help at once, Canada will give

ONE HUNDRED AND SIXTY ACRES OF LAND FREE AS A HOMESTEAD

and allow the time of the farm laborer, who has filed on the land, to apply as residence duties, the same as if he actually had lived on it. This special concession is the reduction of one year in the time to complete duties. Two years' residence instead of three as heretofore, but only to men working on the farms for at least six months in 1917.

This appeal for farm help is in no way connected with enlistment for military service but solely to increase agricultural output. A wonderful opportunity to secure a farm and draw good wages at the same time. Canadian Government will pay all fare over one cent per mile from St. Paul or Duluth to Canadian destination. Information as to low railway rates may be had on application to

A New Definition.

The word "gentleman" has always been a difficulty, and great writers, particularly Newman, in a famous passage, have been at pains to define it. Probably the higher you ascend the social scale the more seldom you hear the word. But a new measure of gentility came my way recently (writes a correspondent). The landlord had sent his men to mend a gap in the fence, and the maid, observing them through the kitchen window, remarked: "There are two men in the garden, and one of them's a gentleman—he's wearing a mackintosh!" A gig, according to Carlyle, used to be the standard of respectability—a standard more difficult to attain than this new one of gentility,-Manchester Guardian.

Another Operation Avoided.

Richmond, Ind.—"For two years I was so sick and weak from female troubles that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, do all kinds of garden work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound."—Mrs. M. O. Johnstox, Route D, Box 100, Richmond, Ind.

Of course there are many serious cases that only a surgical operation will-relieve. We freely acknowledge this, but the above letters, and many others like them, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

PAIN? NOT A BIT! LIFT YOUR CORNS OR CALLUSES OFF

No humbug! Apply few drops then just lift them away with fingers.

This new drug is an ether compound discovered by a Cincinnati chemist. It is called freezone, and can now be obtained in ting bottles as here shown at very little cost from any drug store. Just ask for freezone. Apply a drop or two directly upon a tender corn or callus and instantly the soreness disappears. Shortly you will find the corn or callus so loose that von can lift it off, root

and all, with the fingers. Not a twinge of pain, soreness or irritation; not even the slightest smart-ing, either when applying freezone or afterwards. This drug doesn't eat up the corn or callus, but shrivels them so they loosen and come right out. It is no humbug! It works like a charm. For a few cents you can get rid of every hard corn, soft corn or

So they began to play.
"Three other children said, 'Let's be very famous. We shall have all the people in the world swarm around us like the bees do around the flowers for the honey. They shall say how fine we are, how brave we ware, and how noble. They'll put up monuments to us.

And there are the Fairies and Gnomes who have special little friends they want me to be sure to give nice dreams to this very evening. The children I am sending out the dreams for now are in the other lands where it is night. They will be getting up when I start sending dreams to the children around

"'But, Dream-King,' asked the Sandman, 'can't you give some dreams now around here. I want some children to have some so much.'

"'Oh, yes,' said the Dream But I will have to call my old friend and partner, Mr. Napping Time. He helps me when children are asleep in the daytime—napping time, you see.' "So-together the Dream-King, Mr. Napping Time and Mr. Sandman put the children who were playing sound asleep and sent them dreams.

"They all had their play-games made real-in-their-dreams. The two children who wanted to play they were very rich, dreamed they were rich, but oh, how they lated it! They wouldn't felt as if they owned absolutely nothing at all for everything was taken care of by someone else. They weren't allowed to play and get the least little scrap of dirty, for they had to wear such wonderful clothes! Oh, it was a very miserable dream.

"The children who wanted to be very famous dreamed they were surrounded by people who never let them move so they could play. They saw a monument put up in a park with their names written in stone. But the monument was too big to play with.

"The children with the dogs and the pony were having the most gorgeous dream. They were taking such care of their pets and the animals loved them so.

"But at last the Dream-King, Mr. Napping Time and the Sandman left them, and they awoke suddenly.

"And one and all agreed that animals and games were fun, but that riches and great fame were very, very dull."

Doctor Said Operation or Death-But Medicine Cured.

Des Moines, Iowa.—"My husband says I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound. I suffered from a serious female trouble and the doctors said I could not live one year without an operation. My husband objected to the operation and had metry Lydia E. Pinkham's Vegetable Compound. I soon commenced to get better and am now well and able to do my own housework. I can recommend Lydia E. Pinkham's Vegetable Compound to any woman as a wonderful health restorer."—Mrs. BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Another Operation Avoided.

Richmond, Ind.—"For two years I was so sick and weak from famale troubles that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, do all kinds of garden work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound."—Mrs. M. O. Johnston, Route D., Box 190, Richmond, Ind.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letters, and many others like them, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medi-cine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

PAIN? NOT A BIT! LIFT YOUR CORNS OR CALLUSES OFF

No humbug! Apply few drops then just lift them away with fingers.

This new drug is an ether compound discovered by a Cincinnati chemist. It is called freezone, and can now be obtained in tiny bottles as here shown at very little cost from any drug store. Just ask for freezone. Apply a drop or two directly upon a tender corn or callus and instant. ly the soreness disappears. Shortly you will find the corn or callus so loose that you can lift it off, root and all, with the fingers.

Not a twinge of pain, soreness or irritation; not even the slightest smart-ing, either when applying freezone or afterwards. This drug doesn't eat up the corn or callus, but shrivels them so they loosen and come right out. It s no humbug! It works lke a charm. For a few cents you can get rid of every hard corn, soft corn or

corn between the toes, as well as painful calluses on bottom of your feet. It never disappoints and never burns, bites or inflames. If your druggist hasn't any freezone yet, tell him to get a little bottle for you from his wholesale house .- adv.

BACKACHE IS DISCOURAGING. But Not So Bad If You Know How to Reach the Cause.

Nothing more discouraging than constant backache. Lame when you awaken, pains pierce you when you end or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Grayling people recommend Doan's Kidney pills. Read this case:

Mrs. Wm. Moshier, Maple and Ogemaw Sts., Grayling, says: "Doan's Kidney pills have been a household remedy in my family for several years. I have often noticed that my kidneys were weak and the kidney secretions were too frequent in passage My back was lame and I had a constant, dull ache thru the small of i Doan's Kidney pills, which I got a Oison's drug store, have never failed to rid me of these attacks in short or

Constinution and Indigestion. These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when Allison, Mattoon, Ill., writes that when she first moved to Mattoon slic was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felr worn out a good part of the time. One bottle of Chamberfain's Tablets corrected this trouble so that she has since felt like a different person.
